

MetAMINO®

DL-Methionine, Feed Grade 99 %

Appearance

White to yellowish crystalline powder
 Bulk density: 700 kg/m³ ± 10 %
 Angle of repose: 40° ± 10 %
 Particle size distribution: min. 90 % 0–1000 µm
 Solubility: approx. 30 g/L water at 20 °C

Specified values

Assay (%) min.	99.0
Ash (%) max.	0.5
Loss on drying (%) max.	0.3

Molecular Data

Molecular formula: C₅H₁₁NO₂S
 Molecular weight: 149.21 g/mol

Production

MetAMINO® is synthesized from petrochemical raw materials using an environmentally friendly patented proprietary process by the feed additives business of Evonik Industries, known as the carbonate process. This proven complex, system results in a high quality product without the formation of waste salt, while largely avoiding pollution by waste air and water.

Use

Particularly for use in monogastrics. MetAMINO® ensures the adequate supply of sulfur amino acids, especially of the essential methionine. Because of methionine being first-limiting in typical poultry diets its use has been well established for many years. Additionally, diets for piglets and growing pigs can show a considerable deficiency in methionine, especially when formulated to achieve low nitrogen excretion for ecological reasons. Such a deficiency can be conveniently compensated for by using MetAMINO®. To supply methionine to ruminants, the feed additives business of Evonik Industries offers its Mepron®, a rumen stable form of methionine.

Food and pharma grade amino acids:

www.rexim.fr

Nutritional matrix

Methionine content	99.0 %	
Digestibility	100.0 %	
Crude protein (N x 6.25)	58.1 %	
Metabolizable energy	[MJ/kg]	[kcal/kg]
Poultry (estimated)	21.0	5,020
Swine (estimated)	22.0	5,280

Processing

MetAMINO® can be processed into premixes, mineral, and compound feeds, together with milk replacers, by any technical procedure. Its technical properties guarantee homogeneous mixability and stability against demixing.

Storage, stability and packaging

MetAMINO® should be kept cool and dry in unopened original packing. Storage and conditions of 5°–30° C and 20–75 % rel. humidity are recommended. Under these conditions its active content is guaranteed for 5 years from the manufacturing date. The manufacturing date is part of the lot number on the package label.

Packaging:

Valve type paperbag 2-ply + plastic film, 25 kg net
Bulk bag/FIBC PP coated, 1000 kg net/750 kg net
Bulk shipment

Regulatory affairs

CAS-No. 59-51-8

Customs tariff number: 293040

MetAMINO® is approved for use in all animal species according to European feed law and labeled accordingly.

MetAMINO® is not subject to dangerous goods regulations

Safety and environment

MetAMINO® can be handled safely.

According to EC chemicals legislation, it is non toxic, and, if correctly handled, it does not irritate the skin and mucous membranes. Accordingly, it is not classified as a hazardous chemical. The usual regulations of safety and hygiene for handling of chemicals should be followed.
